EXPERIENCE

Interaction Design Intern 09/2018 - 12/2018

Digital Product School - UnternehmerTUM,
Munich, Germany

At Digital Product School, I worked as an interaction design intern for one of the projects for Audi about providing on-demand services for their customers. We were a team of 6 people including two Product Managers, two Software Developers and one Artificial Intelligence Engineer and I was mainly responsible for designing the user flow, the wireframes and the prototype.

Product Design Intern 01/2018 - 07/2018

Ubeeqo, Barcelona, Spain

As a part of my internship at Ubeeqo, I was mainly responsible for redesigning the back-office software of the company. I worked with fellow designers, the product owner and the developers constantly. I worked on translating the features provided by the product owners into wireframes and later delivered them as production ready mockups on time. Also, prototyped the complex features and conducted usability tests with the back-office agent which helped to shape an easy and accessible product.

Visual Design Intern 12/2016 - 05/2017

Devson Technologies, Ahmedabad, India

At Devson, I was mainly responsible for designing the android UI for their regional music streaming app called 'Jalso'. I did wireframing, visual design and prototypes for the app based on the provided features list.

Product Design Intern 06/2016 - 08/2016

Dhinchek - Ivy Infoserve Pvt Ltd, Delhi, India

At Dhinchek, I was working with fellow designers on a SaaS-based dashboard to connect salons and tailors with their customers. The dashboard has included the features like booking and viewing appointments, generating invoices, add and remove services etc.
